

SprayTECH
THE DEPENDABLE CHOICE™

EP2105

.40 GPM Electric Piston Pump

The SprayTECH EP2105 was designed to minimize size and weight and maximize performance. At just 24 pounds, the EP2105 is 30% lighter than competitive DC motor piston pumps. And at 0.40 gpm and 3000 psi, it still delivers the highest performance in a sprayer this size. Excellent for residential and commercial jobs, it can spray coatings from lacquers and stains to latex.

KEY FEATURES AND BENEFITS

- **Dual fan design – DCX™ motor – runs cooler providing greater life and lower maintenance cost than competitive designs**
- **Triple lip seal design offers 50% greater packing life than competitive models, resulting in reduced repair costs**
- **Modular-designed pressure control holds a tight deadband, is service friendly, freeze resistant and proven reliable**
- **Live swivel suction set for easy maneuverability**
- **Accommodates up to 300-foot 12 gauge cord and operates under low voltage conditions without damage**
- **Tungsten Carbide reversible inlet and outlet seats minimize service costs**
